## 22. **General Provisions and User Conduct**

22.1. By accessing or using our Game, you acknowledge and agree to abide by these rules, which are designed to ensure a fair and enjoyable experience for all players. You are solely responsible for your conduct within the Game and any consequences that may result from violations of these provisions. We strictly prohibit any form of cheating, hacking, exploiting bugs, or using unauthorized third-party software to gain an unfair advantage. Additionally, harassment, hate speech, discrimination, or any other toxic behavior towards other players will not be tolerated under any circumstances.

22.2. Our moderation team actively monitors in-game activities, chats, and forums to

enforce these rules and maintain a positive community environment. Violations may result in immediate penalties, including warnings, temporary suspensions, or permanent bans, depending on the severity of the offense. We reserve the right to investigate any suspicious activity, including but not limited to account sharing, boosting, or fraudulent transactions. You must keep your account credentials secure and report any unauthorized access immediately—failure to do so may result in irreversible damage to your account. Remember that while we encourage healthy competition and social interaction, all communications should remain respectful and appropriate for players of all ages. Spamming, advertising unrelated services, or attempting to scam other players is strictly prohibited. We also discourage impersonating staff members or spreading false information about the Game or its developers.

22.3. Ultimately, we aim to foster a welcoming and enjoyable gaming space, and your cooperation in upholding these standards is essential. If you encounter any violations or have concerns about another player's conduct, please report them through our official support channels so we can take appropriate action.

## **23. Third-Party Content and Services**

23.1. The Game may incorporate or provide links to third-party services, content, and platforms ("Third-Party Services") that are not owned or controlled by us. These may include payment processors, social media integrations, advertising networks, cloud storage providers, and community forums. While we strive to only partner with reputable providers, we do not endorse, guarantee, or assume responsibility for the quality, safety, legality, or reliability of any Third-Party Services. Your use of such services is entirely at your own risk, and you should carefully review their terms of service and privacy policies before engagement.

23.2. We explicitly disclaim all liability for any damages, losses, or harm resulting from your interactions with Third-Party Services, including but not limited to: fraudulent transactions, data breaches, service interruptions, or exposure to malicious content. Any disputes regarding purchases, subscriptions, or data handling must be resolved directly with the respective third-party provider. Please note that third-party services may collect and use your personal information differently than we do, and we cannot control or protect data once it leaves our systems.

23.3. The availability of Third-Party Services through our Game does not imply our partnership or affiliation unless expressly stated. We reserve the right to modify, remove, or restrict access to any third-party integration at any time without notice. Some features may require you to create accounts with external providers or pay additional fees not controlled by us. Be aware that geographic restrictions, local laws, or platform-specific policies may affect your ability to use certain Third-Party Services.

If you choose to connect your Game account to external services, you acknowledge that

this may share certain profile information and gameplay data according to the permissions you grant. You are solely responsible for managing these connections and revoking access when desired. We strongly recommend using unique passwords for each service and enabling available security features like two-factor authentication.

## **24. Updates and Maintenance**

24.1 We continuously work to improve your gaming experience through regular updates and maintenance. These updates may include new features, gameplay adjustments, security patches, or technical optimizations, and may be deployed automatically without prior notification. While we strive to minimize disruption, you may experience temporary service interruptions during scheduled or emergency maintenance windows. We recommend keeping your game client up-to-date to ensure compatibility and access to the latest content.

24.2 Please note that we are not required to provide advance notice for all updates or maintenance activities, though we will typically communicate major changes through our official channels. Some updates may significantly alter game mechanics, reset progress, or remove certain elements at our discretion. We do not guarantee that all devices or platforms will support every update indefinitely, and older versions may become inoperable over time.

24.3 We reserve the right to modify, suspend, or discontinue any aspect of the Game, including but not limited to servers, events, or premium features, at any time and for any reason. While we aim to support the Game long-term, we cannot commit to indefinite availability and may sunset services when necessary. No compensation is guaranteed for lost progress, virtual items, or other impacts resulting from updates or service changes.

Your submission gives us a permanent, global license to modify, adapt, publish, or otherwise utilize your ideas across all platforms and media.

25.2 Please understand that while we value player input, we cannot guarantee that any particular suggestion will be reviewed or implemented. We receive numerous submissions and must prioritize based on technical feasibility, resource availability, and alignment with our creative vision. Your feedback becomes our exclusive property upon submission, and we may use similar or identical ideas that were independently developed or received from other sources.

25.3 We're not required to explain our decision-making process or provide status updates regarding submitted suggestions. There's no expectation of compensation or special recognition, even if we directly implement your idea. Remember that by participating in feedback programs, beta tests, or surveys, you agree to these terms unconditionally.
